

1 Intro

In the early nineties, Global System for Mobile communication→(**GSM**) was deployed in many European countries. **GSM** offered for the first time international roaming for mobile subscribers. The **GSM**'s use of Time Division Multiple Access→(**TDMA**) as its communication standard was debated at length. And every now and then there are big discussion whether Code Division Multiple Access→(**CDMA**) should have been chosen over **TDMA**.

CDMA	Code Division Multiple Access	1
GSM	Global System for Mobile communication	1
TDMA	Time Division Multiple Access	1
