

Multiplicier Sans Retenue (Tout Niv.)

$$\begin{array}{r} \begin{array}{cc} 7 & 5 \\ \times & 29 \end{array} \\ \hline \begin{array}{cc} 4 & 5 \end{array} \quad (5 \times 9) \\ + \begin{array}{cc} 63 & . \end{array} \quad (7 \times 9) \\ + \begin{array}{cc} 10 & . \end{array} \quad (2 \times 5) \\ + \begin{array}{ccc} 14 & . & . \end{array} \quad (2 \times 7) \\ \hline 2175 \end{array}$$

$$75 \times 29 = 2175$$

Remarque:

$$\begin{aligned} 75 \times 3 &= 150 + 75 = 225 \\ 75 \times 30 &= 2250 \\ 75 \times 29 &= 2250 - 75 \\ &= 2250 - 50 - 25 \\ &= 2175 \end{aligned}$$
